

Biography of Huahong Shi

Huahong Shi is a professor of Environmental Sciences at East China Normal University and an associate editor of *Marine Pollution Bulletin* (2020-). He got his Ph.D. degree of Aquatic Biology in Jinan University of China in 2003. He is interested in studying microplastic pollution in aquatic environments and endocrine disrupting chemicals in aquatic organisms. He has ever studied imposex in snails, thyroid disrupting effects of chemicals on amphibian and teratogenicity of chemicals to vertebrate embryos for 20 years. In recent 8 years, Huahong is focusing on microplastic and nanoplastic pollution including analytical methods, fate, toxicological effects and risks to human health. He has been listed as one of the “Highly Cited Researchers” by Clarivate Analytics for 2020.
